

one S1

12.5 MPH

15-Mile Range

App Control

one S1

The Ninebot One S1 by Segway is a single wheel, electric, self-balancing wonder, but it's **not** for everyone. Yes, we just said that! It **is** for your customers though, because they're bold and love a challenge. They look to try new things, be different and turn heads. They've got things to do and they need to get to where they're going quickly and in style. Why will they give the One S1 a shot? Because they're adventurers and the One S1 is functional – and insanely fun, too!

SPECIFICATIONS

Rider Requirements

Age	16 - 50
